1. DCCI				Frank: I would like to recommend that the DCI give strong consideration to inviting the President out on September 18 vice August 17 or 18 because September 18 is the Agency's birthday. If this could be done then we might also consider having the President present longevity awards to some of our employees.

MEMORANDUM FOR: Executive Advisory Group Members

SUBJECT : Minutes of Meeting, 19 July 1978--President's Visit (A/IUO)

1. (A/IUO) Following up on the DCI's memo of 5 July (same subject), Mr. Carlucci asked members for their views on structuring an agenda for an expected visit by the President sometime in August. (The White House will confirm date/time by 1 August.)

2. (C) Discussion centered on developing a three-part (30 minutes each) event and scenarios that would be most profitable to both the President and the Agency. Members' views touched on numerous aspects--how the purpose of the event should be viewed, the political implications, the potential gain for Agency morale, an opportunity for the President to see first-hand how Agency people work, and logistical and security implications.

3. (C) It quickly became evident that one of the more difficult problems will be in how to cope with the press corps that is likely to accompany the President. The degree of access permitted to the press will determine the limit of participation by DDCI personnel and vice versa. It was agreed that DDCI personnel would benefit most from direct participation in this event. This problem needs to be worked out carefully to ensure a balanced and secure arrangement—if possible, one that will neither deny participation by the largest number of Agency personnel nor the benefits of press coverage.

4. (C) After examining several alternatives for each segment of the three-part agenda, it was agreed that the following general plan would be proposed:

--DCI and DDCI to greet the President.

--President to meet with Agency senior staff in DCI Conference Room (brief presentation of current interest items—substantive intelligence or operational situation or both).

—Visit to one or two areas (to be selected); designed to show the President how CIA works. This might be best illustrated by a presentation of how information becomes an intelligence item in the PDBs (if appropriate, an item appearing in the PDB that very day). NFAC and DDO participants should make this presentation.

—President to address Agency personnel in the auditorium and probably include a short period for questions and answers. This segment to be carried on TV monitors in the main building for general viewing by all personnel.

Each segment will be limited to 30 minutes or less.

5. (A/IUO) Mr. Carlucci tasked the following to work out details:

Mr. Hetu Develop scenario (with options) for arrival of the President and talking points for the President's use in the auditorium.

Mr. Taylor Draw up a couple of scenarios for President's meeting with Agency senior staff.

Mr. Malanick Work out the logistics including selection of participants to greet the President, make-up of audience in the auditorium, security, and arrangements for press corps.

6. (A/IUO) Mr. Carlucci asked Mr. Taylor to pull together these items for his review. They should be received by Mr. Taylor no later than 27 July. A paper will then be prepared for DCI approval and White House review, approval, and coordination.

Executive Summary
78-1971

5 JUL 1978

MEMORANDUM FOR: Deputy Director of Central Intelligence
FROM: Director of Central Intelligence
SUBJECT: President's Visit to CIA

1. We have to start thinking about the President's proposed visit to the Agency. I hope it will take place in mid-August. If we can get him for an hour and one-half, I had the following things in mind:

- a. Half an hour with a group of DDO people.
- b. Half an hour with NFAC.
- c. Half an hour touring a few places with particular reference to touring the graphics facilities which he has expressed so much admiration for.

2. We will have to think carefully about how we can structure meetings with DDO and NFAC to be of maximum benefit to the President and to us.

ADDITIONAL REMARKS

1. After President Carter's remarks at building entrance, he will pass through lobby where he can pass by an additional 200-300 Agency personnel. He will be escorted by DCI and DDCI up to the DCI Conference Room in the DCI elevator.
2. After meeting with senior staff, i.e., 0900 group, the President will be escorted to the Ops Center by DCI and DDCI. After presentation in the Ops Center Conference Room, he can leave the 7th floor via the Nos. 13, 14, 15 and 16 bank of elevators which will enable him to circle the quadrangle back to the first floor tunnel entrance to the auditorium. Agency personnel will be in all these hallways to greet him enroute. Since no members of media will be allowed in the building, there should be no cover problems and he can be given maximum exposure.
3. If a tour of the building is substituted for any one-half hour segment, suggest the Signal Center on the first floor; one of the cafeterias which can be filled with DDO personnel who seem to be regularly excluded from such affairs for cover reasons; and possibly Signal Analysis Division of the DDS&T on the ground floor, which seems to hold a fascination for visitors.
4. Distribution of tickets for the auditorium will be based on 500 capacity and using on-duty strength in Metropolitan Area (by Directorates):

	STAT
--	------

Tickets will be distributed to the Directorates, the DCI Staff and IC Staff in the above numbers. The distribution to each element will be accompanied by a memorandum signed by the DDA which will direct that distribution should be made to cover a cross-cut of Agency personnel, including grade, male/female and minority groupings. Each Directorate will make a suballocation to offices and/or divisions. It will be their responsibility to monitor the distribution.

Welcoming Remarks for the DCI On the Occasion of
the President's Visit to CIA Headquarters, August 1978

Mr. President,

On behalf of all of the ladies and gentlemen of the Central Intelligence Agency--welcome.

And Mr. President, it is my great privilege to be able to present to you the extremely able, dedicated people of the world's finest intelligence organization. I always knew they were good, but I didn't realize just how good until I became one of them a year and a half ago. In all candor, that revelation is among the most delightful of my entire career in government service. I cannot praise the dedication and professionalism of these people enough.

We are of course pleased, honored, and flattered by your visit here and by the fact that you would take the time from your heavy responsibilities to share some time with us.

But more than that. We all recall your promise on your last visit here to provide the American people with an accurate assessment of the legality and propriety of intelligence activities.

Mr. President, we welcome your assessment. We are proud of the way we conduct our business--effectively and honestly.

Approved For Release 2003/04/25 : CIA-RDP81-00142R000700130009-5

We are proud of our role as the only independent intelligence agency responsible directly to you and the National Security Council, and we are dedicated to your service.

You know the value of our business and how well it is performed better than anybody else. I speak for all the people of CIA when I say sincerely how delighted I am to have you with us today. You are the one person in the world most able to evaluate and appreciate our performance.

Again, welcome, and thank you for being here.
